THE INNOVATION OF NANO-BASED TECHNOLOGY IN CANNABIS PLANTS PROTECTION

Insecticide - Fungicide - Surfactant - Cationic Charge

- ✓ Formulated with Zetrissil
- ✓ Increases Plant Health
- ✓ Controls Mold & Mildew
- ✓ Reduces Plant Stress
- ✓ Eliminates Pests
- ✓ Cationic Charge

Eliminate Mildew, Mold and Fungus Spores.

- ✓ Powdery Mildew
- ✓ Mold
- ✓ Botrytis
- ✓ Fungus
- ✓ Blight
- ✓ Leaf Rust

Eliminate insects on contact including their eggs and larvae

- ✓ Spider Mites
- ✓ Broad Mites
- ✓ Russet Mites
- ✓ Fungus Gnats
- ✓ White Flies
- ✓ Thrips
- ✓ Aphids
- ✓ Ants

Plant Wash

NINJA GOLDFISH

Our uniquely patented formula protects your plants from mold, powdery mildew, fungus and harmful insects throughout the different growth stages.

Zetril® : A **NINJA GOLDFISH** patented long lasting unique ingredient eliminates any plant based infestations with extended persistence.

Natural Oils: Act as minimally invasive pesticides and kill only the leaf sucking insects without harming the beneficial ones such as bees or lady bugs.

Citric Acid: Crosses the cell membrane and lowers intracellular pH. This additional ingredient inhibits the survival of powdery mildew and also has effective anti-fungal properties

Cationic Charged particles: The positively charged Zetril particles increase plant electrical conductivity (EC), allowing better absorption of water essential to plant growth and protection against diseases or unnecessary stress.

Surfactant: Our unique pH balanced surfactant washes the plant from all harmful particles allowing better light absorption and plant growth.

NINJA GOLDFISH

What is Zetrisol® ?

Zetrisol® is a proprietary nano-based silicone compound. Zetrisol® effectively protects and/or shields the surface area where it is applied from germs or mold and mildew contamination by way of a long-lasting, cationic-charged, nano-silicone coating.

How does Zetrisol® work ?

Our Zetrisol-based formulations are effective as a bacterial static to broad spectrum kill against germs, with the additional benefit of protection for up to 28 days per application.

How is the efficacy of our products measured ?

The analysis technique for determining the surface charge of nanoparticles in a solution (colloids) is called “Zeta Potential”. Nanoparticles have a surface charge measured in millivolts that attracts a thin layer of ions of opposite charge to the nanoparticle surface.

Identically Charged Particles Dectract

Plant Wash

NINJA GOLDFISH

Why is Zeta Potential important for Disinfectants ?

The greater the positive charge disinfectants or sanitizing solutions have, the greater killing effect against negatively charged germs, by way of opposite pole magnetic attraction.

How does Zeta Potential improve the efficacy of Disinfectants ?

The majority of germs are negatively charged nano particles. With a positively charged disinfectant and/or sanitizer they will be attracted to each other and agglomerate the negatively-charged germs

Type to enter text

particles around the positively-charged disinfectant or sanitizer solution therefore improving the kill time and efficacy rate per volume of liquid, disinfectant or sanitizer.

OUR PRODUCTS

Cationic
enhanced

Plant Wash Concentrate (Cannabis):

- ✓ Our 1 cup per gallon of water formula immediately brings back the shine and luster to your plant leaves and washes away all harmful powdery mildew, germs or insects after killing them.
- ✓ Can be sprayed at any stages of plant growth.
- ✓ Long lasting effect.

Plant Wash Ready To Use (Cannabis):

- ✓ Our formula immediately brings back the shine and luster to your plant leaves and washes away all harmful powdery mildew, germs or insects after killing them.
- ✓ Can be sprayed at any stages of plant growth.
- ✓ Long lasting effect.

Plant Wash (Garden Plants Indoor/Outdoor):

- ✓ Formulated safe for garden plants.
- ✓ Our formula immediately brings back the shine and luster to your plant leaves and washes away all harmful powdery mildew, germs or insects after killing them.
- ✓ Can be sprayed at any stage of plant growth.
- ✓ Long lasting effect.

NINJA GOLDFISH

Cationic

Laundry complete (Softener):

- ☑ Laundry Complete is a convenient ready to use formula, which sanitizes, softens and deodorizes any machine washable fabric's for up to **200** days from a single application.
- ☑ Protects against Harmful Germs + Viruses and deodorizes.
- ☑ Alcohol, Bleach + Chlorine Free.
- ☑ Softens, detangles, removes static, eliminates unpleasant odors.

Power Wash (Detergent):

- ☑ Power Wash is a convenient ready to use formula for washing all staff clothing and fabric.
- ☑ Protects against Harmful Germs + Viruses and deodorizes.
- ☑ For grease, grime and grass stain removal
- ☑ Alcohol, Bleach + Chlorine Free.
- ☑ Formulated with the deodorizing and germ-killing action of Zetrisil.

Body Spray:

- ☑ Complete sanitization of staff hands and skin to prevent cross contamination to grow rooms.
- ☑ Long lasting protection for entire work shift.
- ☑ US FDA registered .
- ☑ Long lasting effect.

OUR PRODUCTS

Cationic
enhanced

Hand Sanitizer:

- ✓ Complete sanitization of staff hands and skin to prevent cross contamination to grow rooms.
- ✓ Long lasting protection for up to eight (8) Hours.
- ✓ Completely safe for hands.

Hand Soap:

- ✓ Kills 99.99% of germs
- ✓ Helps prevent cross contamination by hand contact.
- ✓ Completely safe for hands, helps to prevent drying of skin.
- ✓ Recommended for repeat use.

Facility Cleaner:

- ✓ For complete cleaning of any exposed and contaminated facility.
- ✓ Protects against germs, viruses, bacteria, mold and mildew.
- ✓ Chlorine and bleach free.
- ✓ Currently used at major hospitals worldwide.
